Folsom Feline Rescue (FFR) works with local veterinarians who have reduced their regular prices for those who cannot otherwise afford to have their pets or strays spayed or neutered. You must supply all of the information requested on this form to receive a low-cost spay/neuter certificate. **If you have a feral (untamed) feline please contact us directly for information on our free feral spay/neuter program (FSNP).**

Our participating veterinarians rely on us to pre-qualify applicants, and their trust in us and the applicants truthfulness is vital to this program. The veterinarian will make the final determination on whether the animal can and should be altered at this time and whether additional services will be needed.

The participating veterinarians in this program require a minimum set of vaccinations before the surgery can be performed. If your pet is current on its vaccinations, **you must bring a vaccination history from your veterinarian.** You may want to contact your local pet or feed store to find out about low cost vaccination clinics. These vaccinations can given at the time of surgery if needed and **you will be responsible for covering the cost for these vaccines at the time of surgery** . If you cannot afford vaccinations and can provide sufficient reason for needing assistance (see Part II on the back of this form), Folsom Feline Rescue will include vaccinations at no cost to you.

Required vaccinations: Dogs (Rabies, Distemper), Cats (Rabies, FVRCP)

Instructions: Complete all sections and mail the application with a **self-addressed, stamped envelope and the appropriate fee (CASHIER'S CHECK ONLY for \$20 per cat, \$40 per dog) with the application** to the address on the back. You are responsible for any additional services that you request from the vet. Declawing, tail docking, ear cropping, or any other mutilating procedure cannot be performed in conjunction with the spay/neuter operation. All cats must be delivered in a pet carrier and dogs must be on a leash.
